To the Superintending School Committee and Citizens of Greenville, I herewith submit my annual report as Superintendent of Schools.

The work of the past year has not differed materially from that of preceding years, as must of necessity be the case in school work, where radical changes in the course of study or in teaching methods are infrequent, most educators believing it better to concentrate on things of known value, than to use pupils as experimental material for untried theories.

High School

The work of the High School is now proceeding very satisfactorily. I feel that the teaching force as a whole is the most effective that it has been for several years, and that the majority of the students are doing excellent work. I am sorry to say, however, that we have a small group who appear to be attending school without a definite purpose in view, coming as a matter of routine, following the line of least resistance rather than working

toward some well defined goal. Lacking interest their attendance is often irregular, their lessons poorly prepared, and unless they can be awakened to a realization of the value of the opportunity they are neglecting, they will sooner or later drop out to swell the ranks of the unprepared. Some of these students possess excellent ability but lack interest and the will to apply themselves. The problem of the student who doesn't know, but who wants to learn is easy, but the problem of the student who doesn't know and who doesn't care, is a serious one not only for the school, but for the community.

Grades

The work in the grades has been carried on in accordance with the State course of study as required by law. In all departments except that of Physical Training we feel that we are maintaining a creditable standard. While we have not been able to accomplish as much as the State Department of Education recommends along the lines of Physical Training because of lack of room and equipment, calisthenics and setting up exercises are given regularly in the upper grades, while marching games and folk dances are taught in the Primary schools. A few swings and other articles of playground equipment would add greatly to the opportunities for healthful recreation especially among the smaller children.

Repairs

During the past year the High School building has been painted a second coat, and both Primary schools painted one coat, and many minor repairs and alterations made. The largest single job, however, has been the installation of a new sewage system at the Village Primary School, which has eliminated an almost constant source of trouble and expense and greatly improved sanitary conditions. For next year the following matters deserve consideration. Painting the Primary buildings a second coat, cementing the floors of the furnace rooms in both Primary schools, thus reducing the danger from

fire, and making it easier to keep the basements clean. New furnaces should be installed in the east side of the High School building, as the old ones are in very poor condition and besides being wasteful of fuel are likely to become unsafe at any time. In addition to these larger undertakings, there are of course a considerable number of minor repairs that have to be made each year.

The general running expenses for next year will probably not vary greatly from those of the year past. Following the custom of the past few years all recommendations for appropriations will be submitted to the budget committee for their consideration and approval.

Respectfully submitted,

Russell S. Taylor,
Superintendent of Schools.

Report of High School Principal

To the Citizens of Greenville, GREETING:

We take pleasure in reporting that conditions in the High School are very good. Our enrollment is 97; 59 girls and 38 boys. Our teachers are all doing good work, and have the welfare of the students as their first consideration. The majority of our

students are working hard and taking full advantage of the opportunities offered. We are all striving to keep the standard of the school high and no student who fails to do his work need expect to be promoted to a higher grade.

Our greatest lack during the winter months, which include the greater part of our school year, is a building or room suitable for athletic contests and physical education. The construction of a gymnasium ought to be seriously considered. It would not only be a great incentive for keeping boys and girls in high school, but by building up strong and vigorous constitutions, it would be a great asset to the town, the State, and the nation.

Respectfully submitted,

John A. Bagnell, Principal.

Report of Greenville Free Public Library

To the Citizens of the Town of Greenville:

Once more we remind you that our Town has a live and progressive Library by submitting herewith a few facts relative to our activities during the year ending March 1, 1923.

It has been a period of continued activity, as evidenced by the following data, which is worthy of comparison with the results accomplished in previous years:

Number of daily sessions books were issued,	102
Number of books issued,	10,220
Number of books issued in 1914,	814
Largest number issued in one day,	230
Largest number issued in one day in 1914,	74
Average number issued in one day this year,	100
Number of patron's cards issued this year,	110
Total number of patron's cards issued,	2,055
Volumes added this year by purchase,	168

Volumes added this year by gifts,	83
Volumes added this year by State,	10
Volumes catalogued to date,	2,901
Total number volumes in library,	3,425

The Tuesday afternoon service introduced in February, 1922, has been maintained throughout the year and the results justify our action in this extension of our service, in that while the average daily issue of books during 1921 was 185 the average daily issue during 1922 was 100, with a total yearly issue somewhat greater than in 1921. With this reduction in output for each period, more time has been available for our librarian to serve you and to give intelligent and helpful assistance to our patrons. March and April have been our busiest months and the summer and fall the quiet period.

A substantial increase in the number of volumes in our Library is to be noted and this, despite the fact that 378 books have been withdrawn and condemned, worn out and unfit for use, since we opened our doors for business; for the life of a book is of brief duration when in constant demand.

We have mended, during the past year, 450 volumes at an average cost of ten cents per volume, thereby prolonging the life period of those so repaired.

During 1921 and again during 1922 small gifts, consisting of duplicate volumes, have been made to the Monson Library, which recently suffered a severe loss by fire.

During the year Mrs. Rodenbaugh gave an entertainment for our benefit from which we realized one hundred and fifty dollars, which amount has been used for the purchase of necessary accessories, but which it was believed unwise to pay for out of our regular appropriation at your hands.

We extend our thanks to interested friends for gifts of books, magazines and services, and especially to Mrs. Rodenbaugh for her arduous work in staging the entertainment given under our auspices. We appreciate the Town's generous support of the past and wish it were possible to increase your interest to the extent that a larger number of our

fellow citizens would avail themselves of the advantages the Library offers. Valuable books of history and reference are upon our shelves and are being added to continually. Instruction as well as entertainment are yours for the asking.

If our work continues to merit your approval you will evince that approval and encourage the board of trustees by granting the same financial appropriation for 1923 as was given during 1922, the amount so appropriated being five hundred dollars.

Respectfully submitted,

F. W. Allen, President.

Miss E. J. Briggs, Secretary-Treasurer.

Mrs. John H. Brown, Librarian.

P. W. Hall,

Mrs. Lewis Oakes, Trustees.

Auditor's Report

To the Inhabitants of the Town of Greenville:

The accounts of the Treasurer of the Greenville Cemetery Corporation and the Treasurer of the Greenville Free Public Library for the fiscal year ending March 1, 1923 have been examined by me and I find them to be correct with all payments properly vouched.

The accounts of the Selectmen and Town Treasurer for the fiscal year ending March 1, 1923 have also been examined by me and I find the same to be correct, with payments property vouched, except in the following instances: 19 school orders amounting to \$922.69, being pay roll due March 16.

This amount of \$922.69 has been duly entered on Treasurer's books as paid out, but is being held until the date specified, at which time the school orders are to be paid and vouchers received.

F. W. Allen, Town Auditor.

Town Warrant

STATE OF MAINE

PISCATAQUIS, ss.

To Adelbert G. Rogers, a constable in the Town of Greenville, in said County, GREETING:

In the name of the State of Maine, you are hereby required to notify and warn the inhabitants of said Town of Greenville, qualified by law to vote in town affairs, to assemble at the Town Hall, in said Town, on Monday the nineteenth of March, 1923, at ten o'clock in the forenoon, to act on the following articles, to wit:

Art. 1. To choose a Moderator to preside at said meeting.

Art. 2. To choose a Town Clerk.

Art. 3. To see if the Town will vote to accept the reports of the Town Officers.
